PROFESSIONAL PROFILE

Results-driven FinTech Product Analyst with 5+ years of experience across product management, financial data analysis, and workflow automation. Successfully delivered a 45% revenue uplift at Zion Global Limited and unlocked \$10M+ in new revenue tracks at Bostaneastern by engineering data pipelines and managing a \$50M+ product valuation portfolio. Strong structural foundation in accounting rules combined with an advanced technical background in Artificial Intelligence data systems. 9 of 13 ACCA professional exemptions confirmed; currently preparing for the Financial Modeling Institute's Advanced Financial Modeler (AFM) accreditation. Exceptionally positioned for fund administration, data systems automation, transaction reconciliation, and fintech product delivery pipelines.

CORE COMPETENCIES

- **Finance & Fund Operations:** Financial Modelling (DCF, LBO, 3-Statement), Net Asset Value (NAV) Calculation, Trade Reconciliation, Portfolio Valuation, IFRS Financial Reporting, Cost Accounting, Asset Tracking.
- **Technology & Data Engineering:** Python, SQL, React/JavaScript, REST APIs, Git, Automation Pipelines, Machine Learning, Data Analytics, SAP FICO (in progress).
- **Product & Project Delivery:** Product Strategy, Roadmap Prioritization, Agile Methodologies, Cross-Functional Leadership, Stakeholder Management, User Retention Systems.

PROFESSIONAL EXPERIENCE

Product Manager & Financial Data Analyst | Zion Global Limited

May 2023 – May 2026 | Remote / Abuja, Nigeria

- Delivered a 45% revenue uplift within 6 months by executing an AI/ML-informed product roadmap prioritized through rigorous statistical asset tracking and fund metric analysis.
- Architected advanced data pipelines and SQL-backed automation systems that eliminated corporate operational friction and mitigated transactional reconciliation breaks for enterprise financial clients.
- Led cross-functional squads (engineering, data science, and design) to optimize core portfolio delivery workflows, improving development efficiency by 33% using structured analytical frameworks.
- Applied NLP-powered behavioral metrics and data-driven iteration methodologies to product systems, boosting portfolio metrics and lifting quantitative NPS scores by 43%.
- Mentored a high-performing team of 8+ product managers on outcome-driven product analysis and algorithmic financial modelling.

FinTech Product Analyst & Operations Associate | Su.N Gastronomie Betriebs GmbH

Jun 2025 – Nov 2025 | Vienna, Austria

- Analyzed high-volume transactional data, point-of-sale (POS) metrics, and financial workflows to identify operational inefficiencies and product-level improvements.
- Evaluated digital payment system performance using fintech product analysis frameworks to identify and mitigate transactional reconciliation breaks.
- Applied accounting controls to inventory tracking and supplier invoicing, producing structured management reporting and KPI monitoring dashboards.

Executive Product Manager & Quantitative Finance Analyst | Bostaneastern

May 2022 – Apr 2023 | Remote / Saudi Arabia

- Negotiated strategic AI vendor partnerships and structured algorithmic execution frameworks that unlocked \$10M in new revenue lines.

- Conducted advanced financial analysis, DCF/LBO portfolio valuations, and risk-adjusted revenue forecasting across a multi-million euro (\$50M+) product portfolio.
- Built and deployed Python-based sentiment analysis models for an automated Voice-of-the-Customer programme, raising core product NPS from +32 to +65.
- Drove regional digital transformation by integrating automated, SQL-backed quantitative models into corporate decision pipelines, improving execution speed by 40%.

Product Manager & Data Analytics Strategy Lead | SynCore EDU LLC

Oct 2021 – Mar 2022 | Remote / United States

- Built and coached a team of 8+ product managers, embedding advanced data analysis and fintech product optimization tools into daily workflows.
- Executed a data-informed product roadmap resulting in 25% annual revenue growth and launched AI-enhanced features contributing \$8M+ in incremental revenue.
- Designed scalable customer data automation pipelines to optimize user retention and engagement metrics, boosting platform activity by 35%.

EDUCATION & CREDENTIALS

- BA (Hons) in Accounting and Finance (Advanced Entry, Year 3)
Independent College Dublin, Ireland | 2026 – 2027 (Graduation: June 2027)
- BSc in Artificial Intelligence
Johannes Kepler University, Linz, Austria | 2024 – 2026
- Higher National Diploma (HND) in Accounting
Federal Polytechnic Oko, Anambra State, Nigeria | Jan 2016 – Jun 2021
- Diploma in Product Management
Afrihub ICT Institute

PROFESSIONAL PATHWAY & CERTIFICATIONS

- ACCA Professional Qualification: 9 of 13 professional exemptions confirmed.
- Advanced Financial Modeler (AFM): Financial Modeling Institute (FMI) | October 2026 Sitting.
- SAP FICO: C_TS4FI certification tracks in progress via SAP Learning Hub.
- Google Project Management Professional Certification: Foundations completed.

PORTFOLIO & PUBLICATIONS

- Digital Portfolio (nwaduhuozenam.com): Features fully interactive, production-ready models built from scratch including a Live NAV Calculator & Reconciliation Simulator, an interactive DCF Valuation App, and a Fintech Comparable Company Analysis (Comps) Tool.
- Global Relocation Guide: Founder and content strategist of an organic industry publishing engine tracking international mobility and regulatory developments with over 13.8K engaged professionals.
